

Log Home Builders Alberta

Contact one of our independent Alberta distributors to discuss building your custom luxury log home or log cabin in the Canada. Dear André, Gary, Donna and the rest of the Staff at Pioneer Log Homes, From the moment we walked in the door, and seen our names on your welcome board, to the greeting we received when we arrived, to the warm and very informative meeting with Gary, we knew we had found what we were looking for.

There are really no words that can describe what a person feels watching those logs come of the truck and seeing them being constructed into your dream home right before your very eyes. For years we had planned this home and now it was actually happening! That is a day we will never forget as we watched your crew assemble the framework of our home.
